Na na na na na, na na

Take a look around
 Who would have thought we'd all be here?
 So let's mess around
 Cause the future is unclear
 We got nothing better to do
 We just trying to get through
 Can you hear me?
 Can you hear me?
 Yeah

Let the music groove you
 Let the melody move you
 Feel the beat and just let go
 Get the rhythm into your soul
 Let the music take you
 Anywhere it wants to
 When we stuck and can't get free
 No matter what we'll still be singing

Come on come on
 Turn up the music
 It's all we got
 We gonna use it
 Come on come on
 Turn up the music
 Yeah

All we have is now
 Let's make the most of this
 Come on break it out
 So everyone can hear it
 They don't have to understand
 But we'll make them if we can
 Do you hear me?
 Are you with me?
 Yeah

Let the music groove you
 Let the melody move you
 Feel the beat and just let go
 Get the rhythm into your soul
 Let the music take you
 Anywhere it wants to
 When we stuck and can't get free
 No matter what we'll still be singing

Come on come on
 Turn up the music
 It's all we got
 We gonna use it
 Come on come on
 Turn up the music
 Yeah

Come on come on
 Turn up the music
 It's all we got
 We gonna use it
 Come on come on
 Turn up the music

Let the music groove you
 Let the melody move you
 Feel the beat and just let go
 Get the rhythm into your soul
 Let the music take you
 Anywhere it wants to
 When we stuck and can't get free
 No matter what we'll still be singing

Come on come on
 Turn up the music
 It's all we got
 We gonna use it
 Feel the beat and just let go
 Get the rhythm into your soul

Let the music take you
 Anywhere it wants to
 Come on come on
 Turn up the music
 Yeah
