INTRO

Couplet:

Three months in here, Can't catch the tears  
Time never lands, Our love is all that stands now

Pont :

Streets feel strange,      And longer loves can never change

refrain

I'm so glad to have you,      And it's getting worse  
I'm so mad to love you,      And your evil curse

Couplet:

I feel out of place,      Just look at my face  
Stuck in the mud,      Knee-deep in blood girl

Pont :

Eyes, blind fold,      You never said I'm growing old

refrain

I'm so glad to have you,      And it's getting worse  
I'm so mad to love you,      And your evil curse  
I'm so glad to have you,      And it's getting worse  
I'm so mad to love you,      And your evil curse

Break

My my my heart is very light

My my my heart is (still reliant/very light) (still reliant/very light)

Couplet:

Tell them I've gone,      And nothing's wrong  
In from the past,      A sudden blast bang

Pont :

Spring has gone,      And summer keeps on coming on

refrain

I'm so glad to have you,      And it's getting worse

I'm so mad to love you,      And your evil curse  
I'm so glad to have you,      And I'm getting worse  
I'm so mad to love you,      And your evil curse  
I'm so glad to have you,      And I'm getting worse  
I'm so mad to love you,      And your evil curse  
I've a plan to save you      from my misery  
I'm a man too brave      to follow history
