

PJ Harvey - Good Fortune

Threw my bad fortune
Off the top of
A tall building
I'd rather have done it with

Your boy's smile
Five in the morning
Looked into your eyes
And I was really in love

In Chinatown
Hung over

You showed me
Just what I could do

Talking about
Time travel
And the meaning
And just what it was worth

**And I feel like
Some bird of paradise
My bad fortune's
Slipping away
And I feel the
Innocence of a child
Everybody has something good to say**

Things I once thought
Unbelievable
In my life
Have all taken place

When we walked through
Little Italy
I saw my reflection
Come right off your face

I paint pictures
To remember
You're too beautiful
To put it into words

Like a gypsy
You dance in circles
All around me
And all over the world

Chorus x 2

So I take my
Good fortune
And I fantasize
Of our leaving
Like some modern-day
Gypsy landslide
Like some modern-day
Bonnie and Clyde

On the run again
On the run again
On the run again
On the run again
